Your **Emergency Contact** (name, relationship, phone #): _____

Please Note:

Our physicians use Heidi Scribe, which is an AI powered Medical Documentation tool. It is intended to improve the efficiency and accuracy of medical documentation and data collection, thereby freeing more time for your healthcare provider to focus on you and your care. The information collected is used solely by your healthcare provider. **Should you have any objections or concerns regarding this, we kindly ask you to communicate them to us in advance.**

On occasions where you are not physically present to pick up a prescription, it can be faxed directly to your pharmacy from our Electronic Medical Records system. That is why we ask which pharmacy you prefer to get prescriptions at.

Pharmacy (Name & Address): _____ phone / fax # if known: _____

*Medeo (Online booking, secure communication) - Once our team creates your chart, we will send a Medeo invitation to the email address provided. If you do not see the invitation email, please check your Junk/Spam folder and mark messages from Medeo as safe. A Medeo account allows your doctor to send you secure messages and reduce phone tag with our office. It allows you to book and cancel appointments online.
